

Worksheet 01 – Interface design with different components

We should use the following components to build the App. Finish Task 1 with the following names.

1. Screen	2. Button	3. Label	4. Image	5. Clock
-----------	-----------	----------	----------	----------

Task 1 (20 marks): Write down the component names in the boxes below.

Task 2 (5 marks): Create a project with *App Inventor 2* and upload the exported project file (.aia) to the Schoology. (<http://ai2.appinventor.mit.edu/>)
